

Safi Construction
Building Quality

Safi Construction is a professional company that has provided design, construction, renovation and maintenance services for swimming pools and spa complexes in Azerbaijan since 2007. Drawing on many years of experience, the company delivers high-quality, attractive and functional pool solutions for private homes, villas, leisure facilities and commercial properties.

The company offers economy, standard and premium services to suit its customers' budgets and requirements. Material supply, filtration, heating, waterproofing, automatic chemical dosing and other technical aspects of each project are handled by a professional in-house team.

Safi Construction provides warranties ranging from 3 to 15 years on its work. This reflects the company's commitment to quality, trust and long-term customer satisfaction.

At the showroom located at 82 Akademik Hasan Aliyev Street, customers can explore products for swimming pools, saunas and Turkish baths, as well as waterproofing materials, next-generation ceramic materials, filtration equipment, UV systems and heating systems.

Today, with more than 200 completed projects, over 500 satisfied customers and trusted partners, Safi Construction is one of the trusted names in the swimming pool and spa sector.

WATER. WELLNESS. NATURE.

Water Creates a Better Life

A high-quality photograph of a modern outdoor swimming pool. The pool features curved, multi-tiered stone steps leading into the water. The pool is surrounded by a light-colored stone deck. In the background, there is a lounge area with a sofa and two lounge chairs, each with a large patio umbrella. The landscaping includes palm trees, banana plants, and other tropical foliage. The sky is clear and blue.

**"Create the most beautiful corner of
your life with a premium pool design."**

SWIMMING POOLS

OVERFLOW POOLS

Overflow pools are a premium pool type distinguished by their modern appearance and functional system. Water flows over the pool edge into specially designed channels and remains in constant circulation, creating a cleaner, more attractive appearance. At Safi Construction, we build stylish, long-lasting overflow pools tailored to your space using high-quality materials.

- 💎 **Premium Appearance:** Gives the pool an attractive, luxurious look.
- 🏗️ **Durable Construction:** Quality materials ensure long-lasting use.
- 🌊 **Clean Water Circulation:** The overflow system helps keep the water cleaner and balanced.

SKIMMER POOLS

Skimmer pools stand out for their practical design and ease of use. In this system, water is drawn through skimmers installed in the pool walls for filtration, ensuring clean water circulation. At Safi Construction, we build attractive, functional and long-lasting skimmer pools tailored to your space using high-quality materials.

- ⊕ **Practical System:** The skimmer system makes water filtration convenient.
- 🌊 **Easy to Use:** A simple, functional and practical pool solution for everyday use.
- 🌊 **Clean Water Circulation:** Water enters the circulation system through skimmers in the pool walls and is cleaned.

BIOLOGICAL PONDS

Biological ponds and natural swimming spaces bring water, landscape and recreation together. Safi Construction develops integrated concepts with planted water zones, circulation and filtration, complemented by thoughtfully planned outdoor amenities.

✓ NATURAL FILTRATION & WATER ZONES

Planted regeneration areas and biological filtration are integrated with the pond and swimming-zone design.

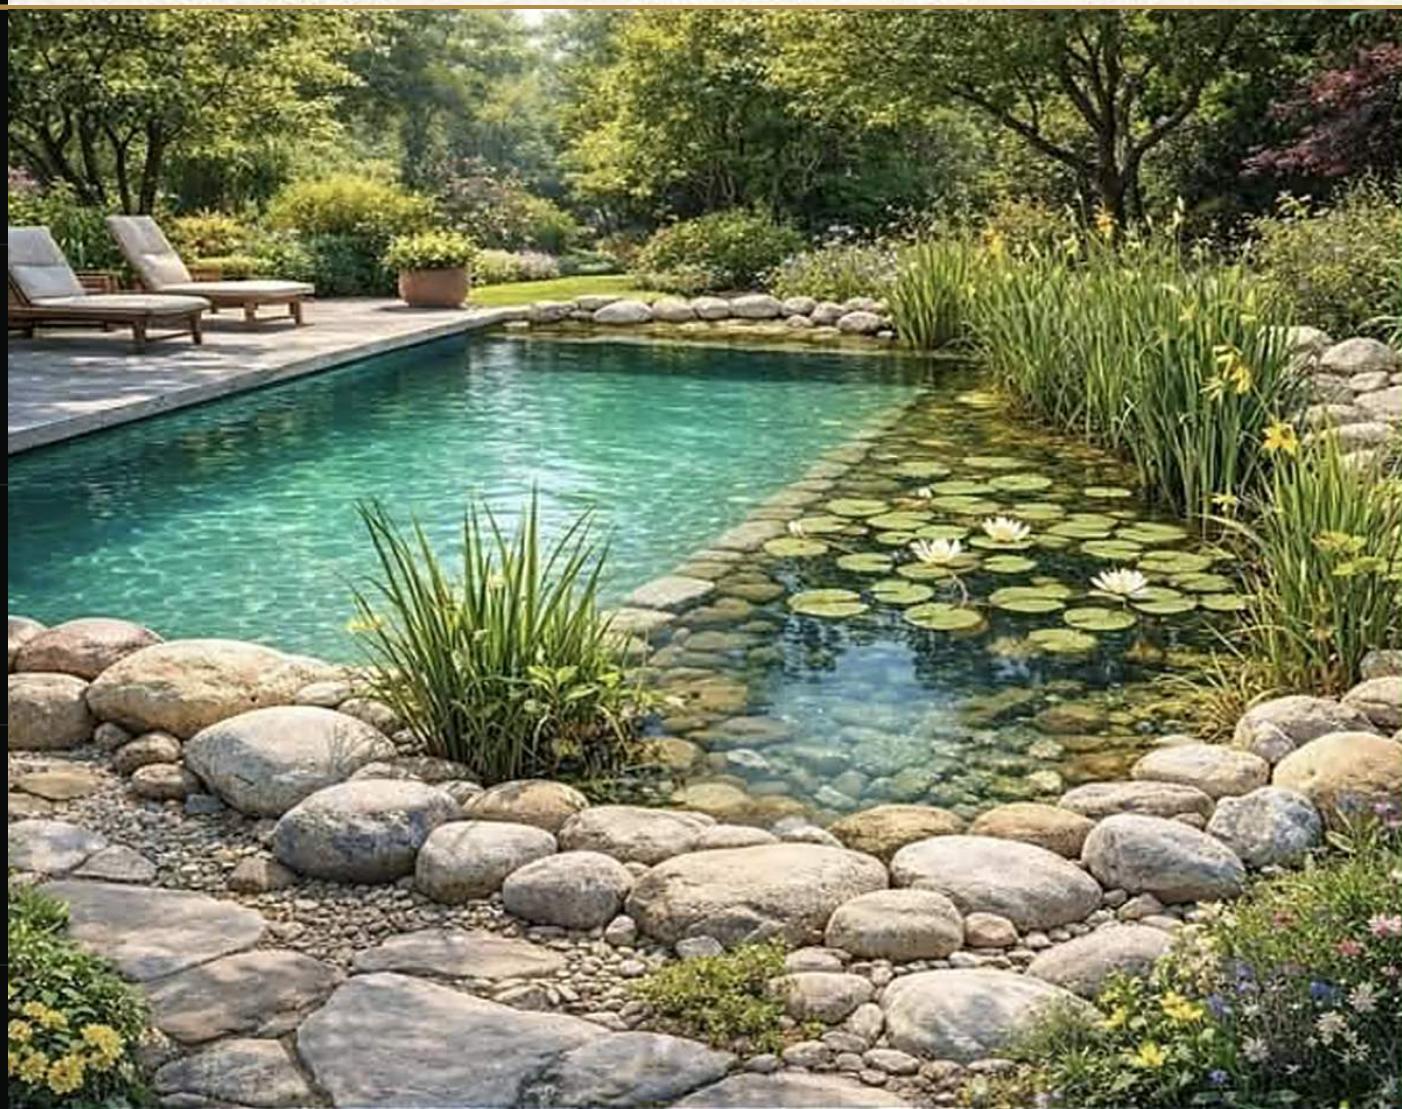

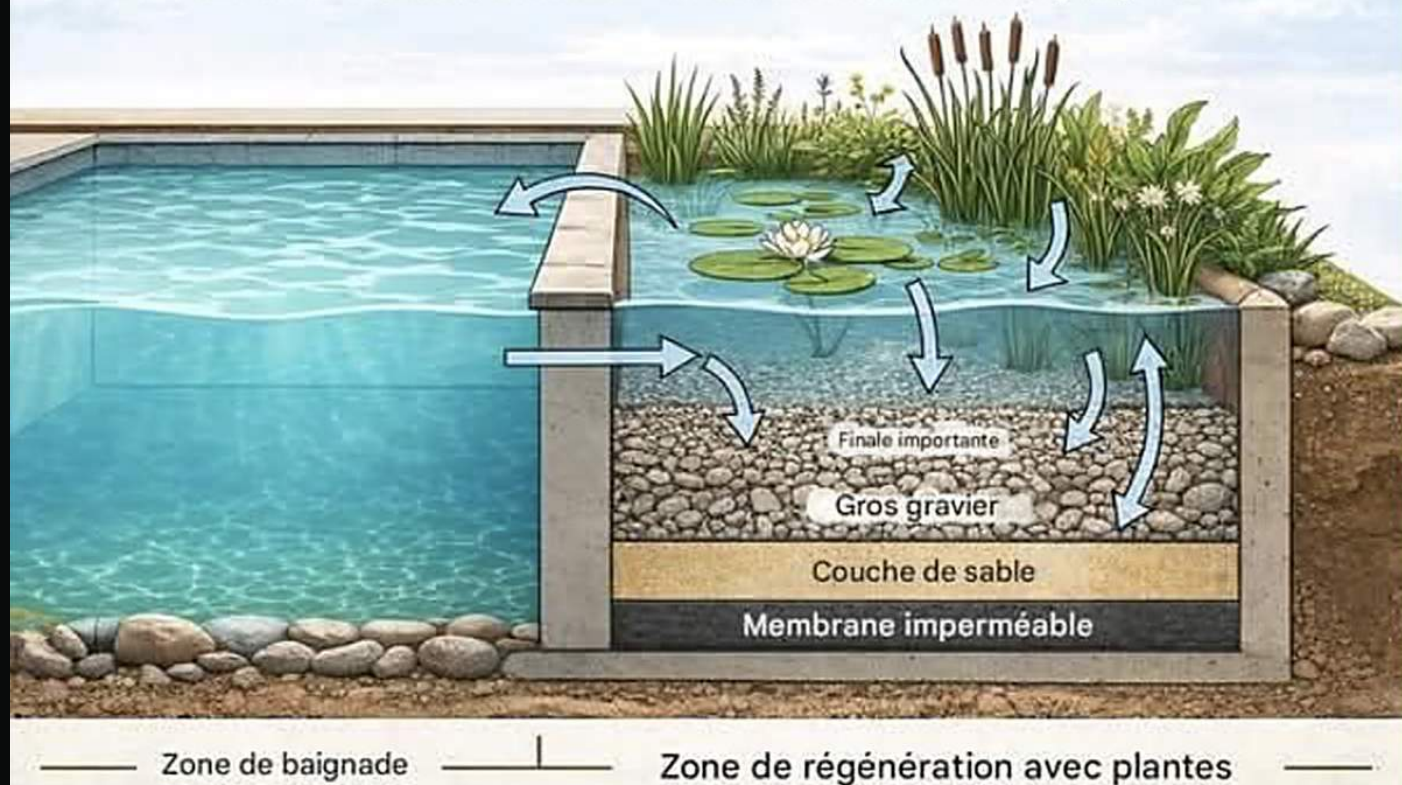

✓ LANDSCAPE & RECREATION

Walking and cycling paths, bridges, seating, sports areas and an open-air amphitheatre create connected leisure spaces.

✓ INTEGRATED MASTERPLANNING

Water features, an atrium and restaurant, permeable surfaces and landscape planting form a coordinated site concept.

Piscine naturelle : filtration écologique

WATER FILTRATION SYSTEMS

Safi Construction offers integrated water treatment solutions configured for each project. The featured system combines pre-filtration, water softening and reverse osmosis equipment with pumping, monitoring and automatic valve control.

✓ **MULTI-STAGE PRE-TREATMENT**

Quartz sand filtration, activated carbon filtration and a water softener form the pre-treatment stages.

✓ **REVERSE OSMOSIS**

RO membrane equipment and a high-pressure pump are integrated into a compact, coordinated treatment system.

✓ **CONTROL & MONITORING**

A stainless-steel control cabinet, pressure gauges, flowmeters and automatic valves support system operation.

**"Experience premium
relaxation in every drop."**

HYDROMASSAGE SYSTEMS

Hydromassage Pool

A massage room is a specially designed space that promotes physical comfort, relaxation and a spa atmosphere. At Safi Construction, we create massage rooms for spas, villas, hotels and private spaces.

 **Massage Effect:** Water flow and pressure provide a feeling of comfort and relaxation.

 **Warm Water Comfort:** The heating system creates a more comfortable and luxurious experience.

Hydromassage Shower

A hydromassage shower is a modern shower system that uses water pressure to massage the body, providing relaxation and comfort. It makes everyday use more enjoyable and brings a premium spa atmosphere to your space.

 **Massage Effect:** Creates a place to unwind from everyday fatigue.

 **Premium Appearance:** Gives bathrooms and spa spaces a modern, attractive and luxurious look.

JACUZZI SYSTEM

A Jacuzzi is a premium relaxation solution that combines warm water and hydromassage to soothe the body and provide spa comfort. At Safi Construction, we install high-quality Jacuzzi systems with attractive designs tailored to your space.

 Hydromassage Effect: Water pressure massages the body and creates a feeling of relaxation and rest.

 Warm Water Comfort: The heating system makes the experience more comfortable and enjoyable.

EXPERIENCE SHOWER

An experience shower is a modern shower system that combines different water flows, lighting effects and a spa atmosphere to make an ordinary shower more comfortable, engaging and luxurious. At Safi Construction, we offer high-quality, attractive experience shower solutions tailored to your space.

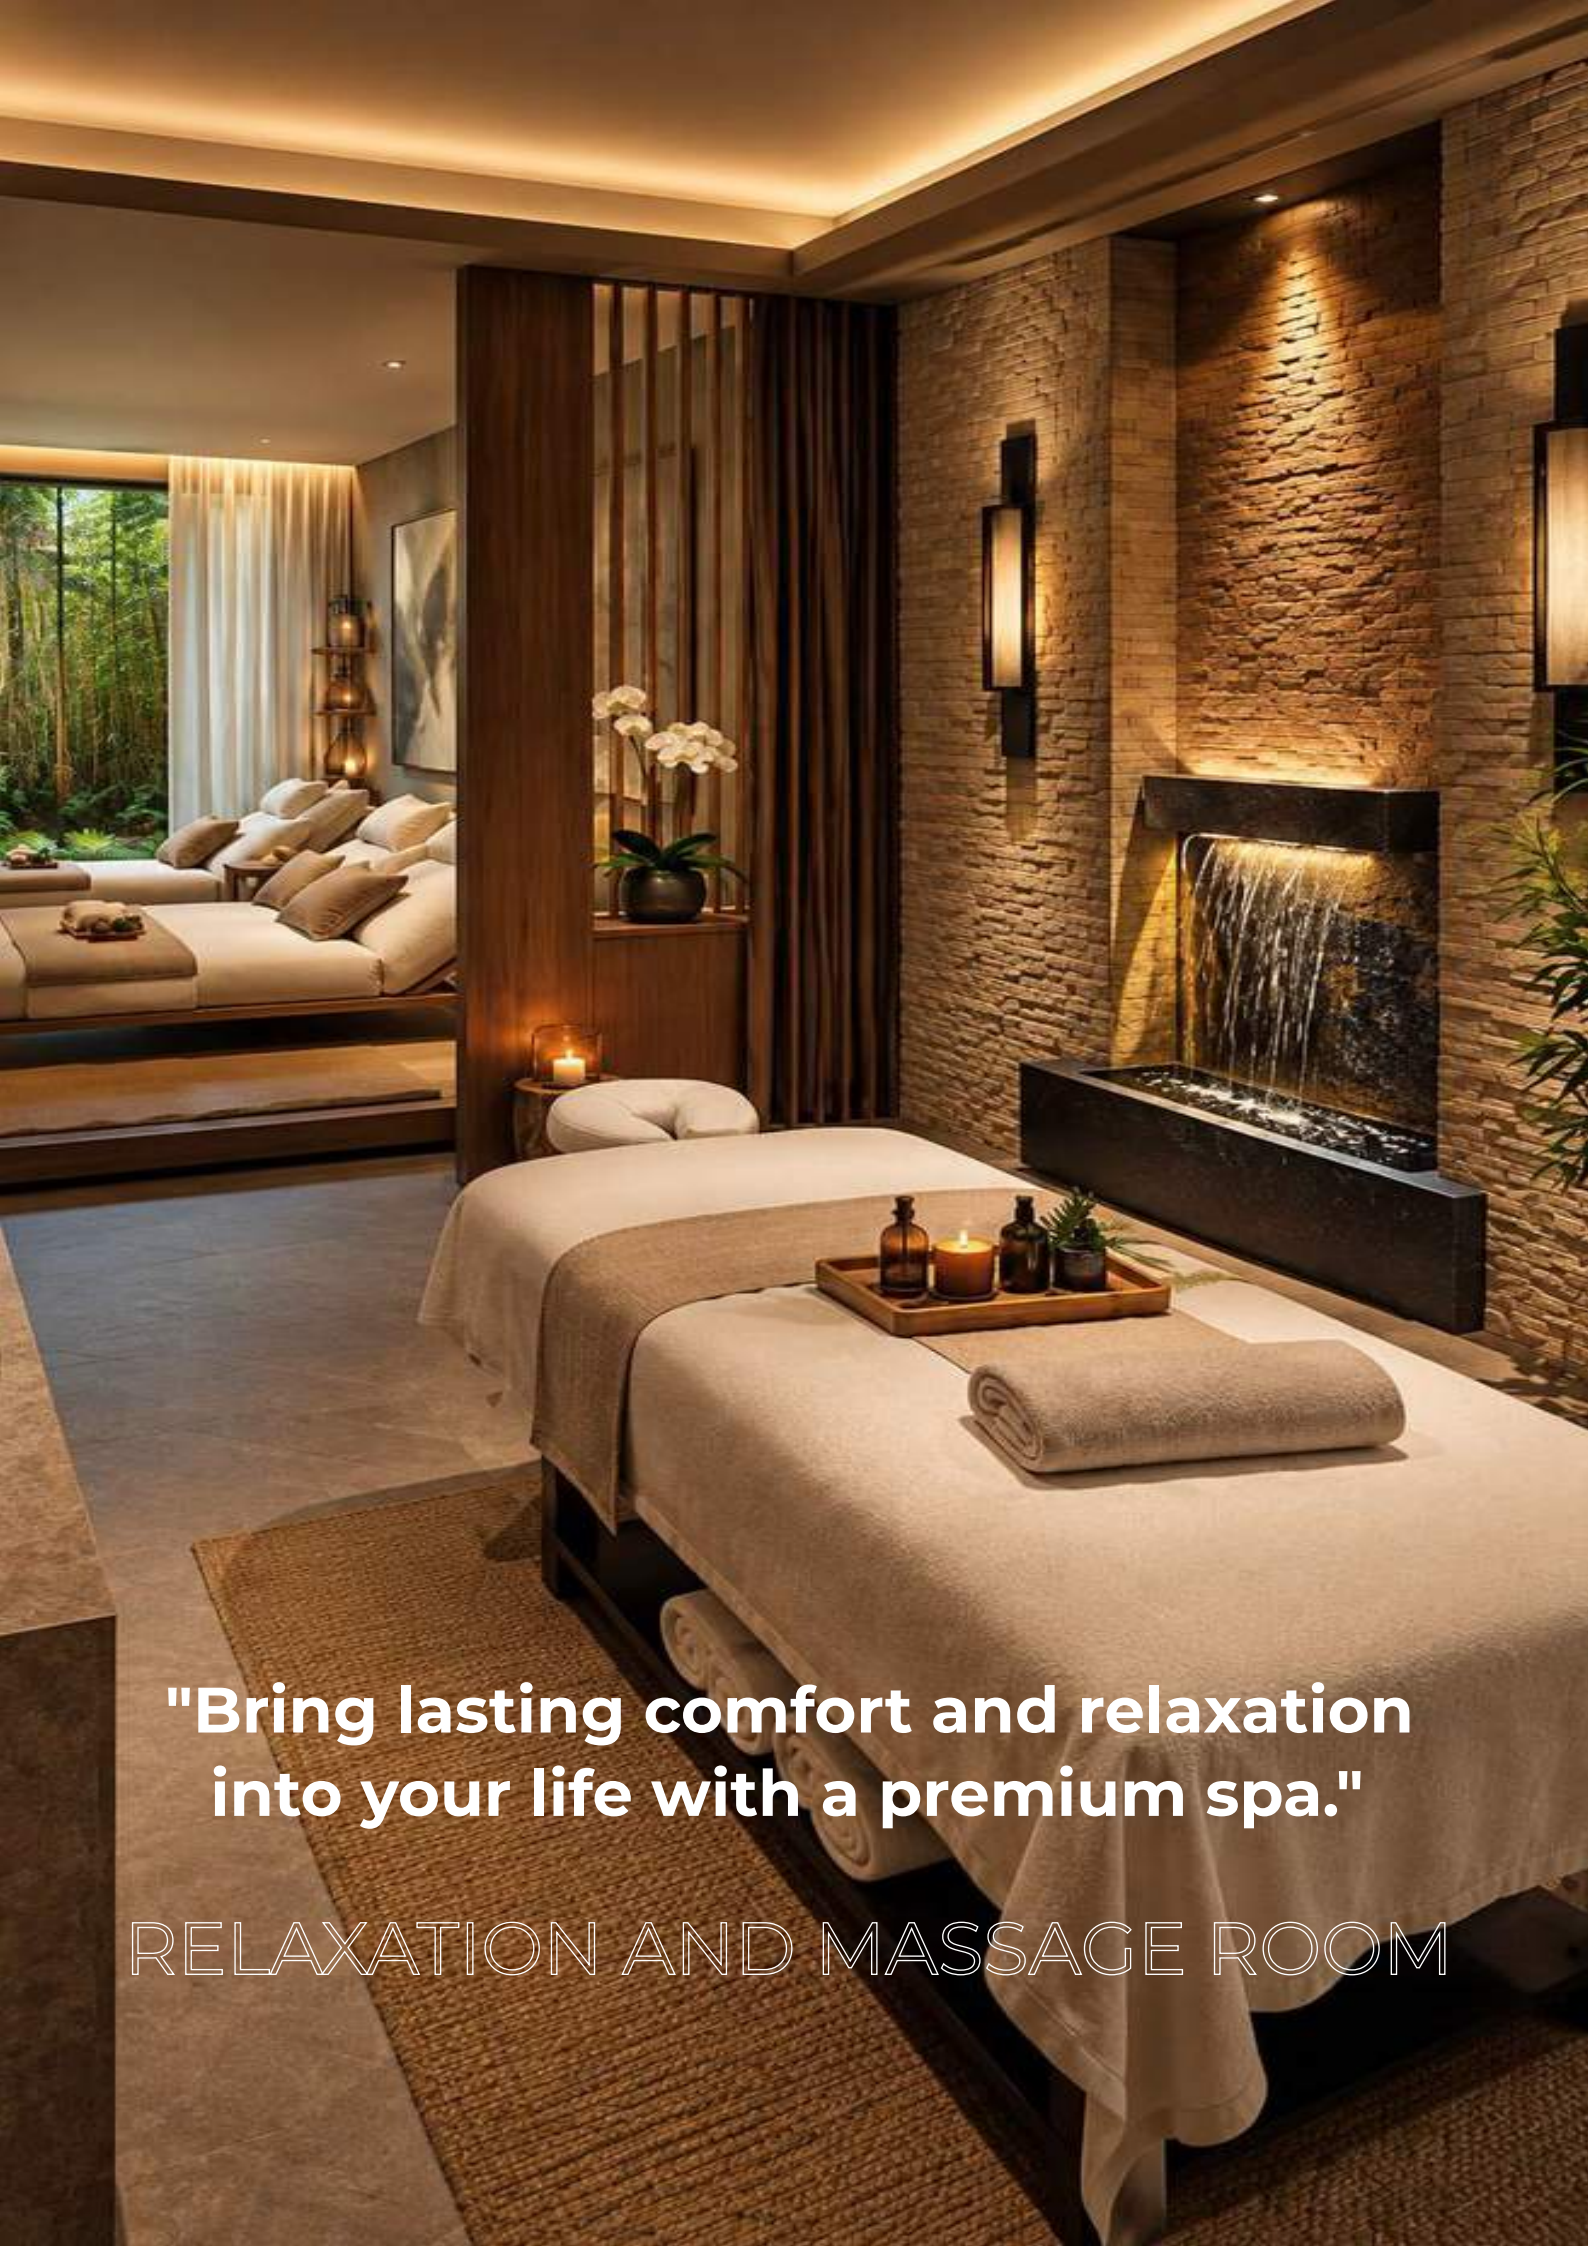

Premium Appearance: Gives the pool an attractive, luxurious look.

Different Water Effects: Rain, tropical shower effects and transitions between cool and warm water create a distinctive feeling of relaxation.

Lighting Effects: Colored lighting makes the shower experience more attractive and im-

**"Bring lasting comfort and relaxation
into your life with a premium spa."**

RELAXATION AND MASSAGE ROOM

"Feel Ottoman history and culture all
around you."

TURKISH BATH

TURKISH BATH

At Safi Construction, we build and install attractive, functional Turkish baths that combine traditional comfort with modern design. With warm steam, marble surfaces and a relaxing atmosphere, Turkish baths are dedicated leisure spaces that soothe the body, reduce fatigue and provide spa comfort. They are an ideal choice for private villas, spa centers, hotels and premium relaxation areas.

 **Warm Steam Comfort:** A Turkish bath creates a warm, humid environment that relaxes the body.

 **Spa Atmosphere:** Provides an ideal environment for unwinding from everyday fatigue.

 **Premium Appearance:** Marble, mosaics and elegant design details give the space a luxurious look.

 **Traditional and Modern Design:** Classic Turkish bath style is combined with contemporary interior solutions.

"Professional sauna solutions for high quality and healthy relaxation."

SAUNA

FINNISH SAUNA

At Safi Construction, we build and install Finnish saunas whose high temperatures and dry-air systems create comfort, relaxation and a premium spa atmosphere.

 Natural Wood Design: Water flow and pressure provide a feeling of comfort and relaxation.

 Premium Spa Atmosphere: The heating system creates a more comfortable and luxurious experience.

Bio Sauna

Compared with a traditional sauna, a bio sauna offers milder temperatures and a more comfortable humidity level, making it ideal for relaxation and everyday use. At Safi Construction, we install bio saunas that create a premium spa atmosphere.

 Gentle Heating System: Mild temperatures help the body relax and make the experience more comfortable.

Steam Sauna

At Safi Construction, we install steam saunas that combine high humidity with gentle heat to create comfort, relaxation and a premium spa atmosphere.

Salt Sauna

A salt sauna combines special salt panels, gentle heat and a peaceful atmosphere to provide relaxation and premium spa comfort.

**"Professional sauna solutions for high
quality and healthy relaxation."**

STEAM ROOM

Traditional Steam Room

At Safi Construction, we build and install traditional steam rooms characterized by hot steam, high humidity and a comfortable atmosphere. A traditional steam room relaxes the body and mind.

-  **Warm Steam Effect:** High-humidity steam provides a feeling of comfort and relaxation.
-  **Comfortable Atmosphere:** A calm, warm and humid environment creates ideal conditions for relaxation.

Herbal Steam Room

A herbal steam room combines hot steam with natural herbal aromas to create a dedicated relaxation space offering comfort, freshness and a premium spa experience. At Safi Construction, we create high-quality herbal steam rooms for your space.

-  **Herbal Aromas:** Herbal scents and steam create a comfortable, refreshing atmosphere.
-  **Premium Design:** An attractive and luxurious choice for villas, hotels, spas and private relaxation spaces.

Aromatic Steam Room

An aromatic steam room combines hot steam with a pleasant fragrance system to provide relaxation, freshness and premium spa comfort. At Safi Construction, we build aromatic steam room solutions tailored to your space.

 Pleasant Aroma Effect: Special fragrances spread with the steam to create a soothing atmosphere.

 Warm Steam Comfort: A calm, warm and humid environment creates ideal conditions for relaxation.

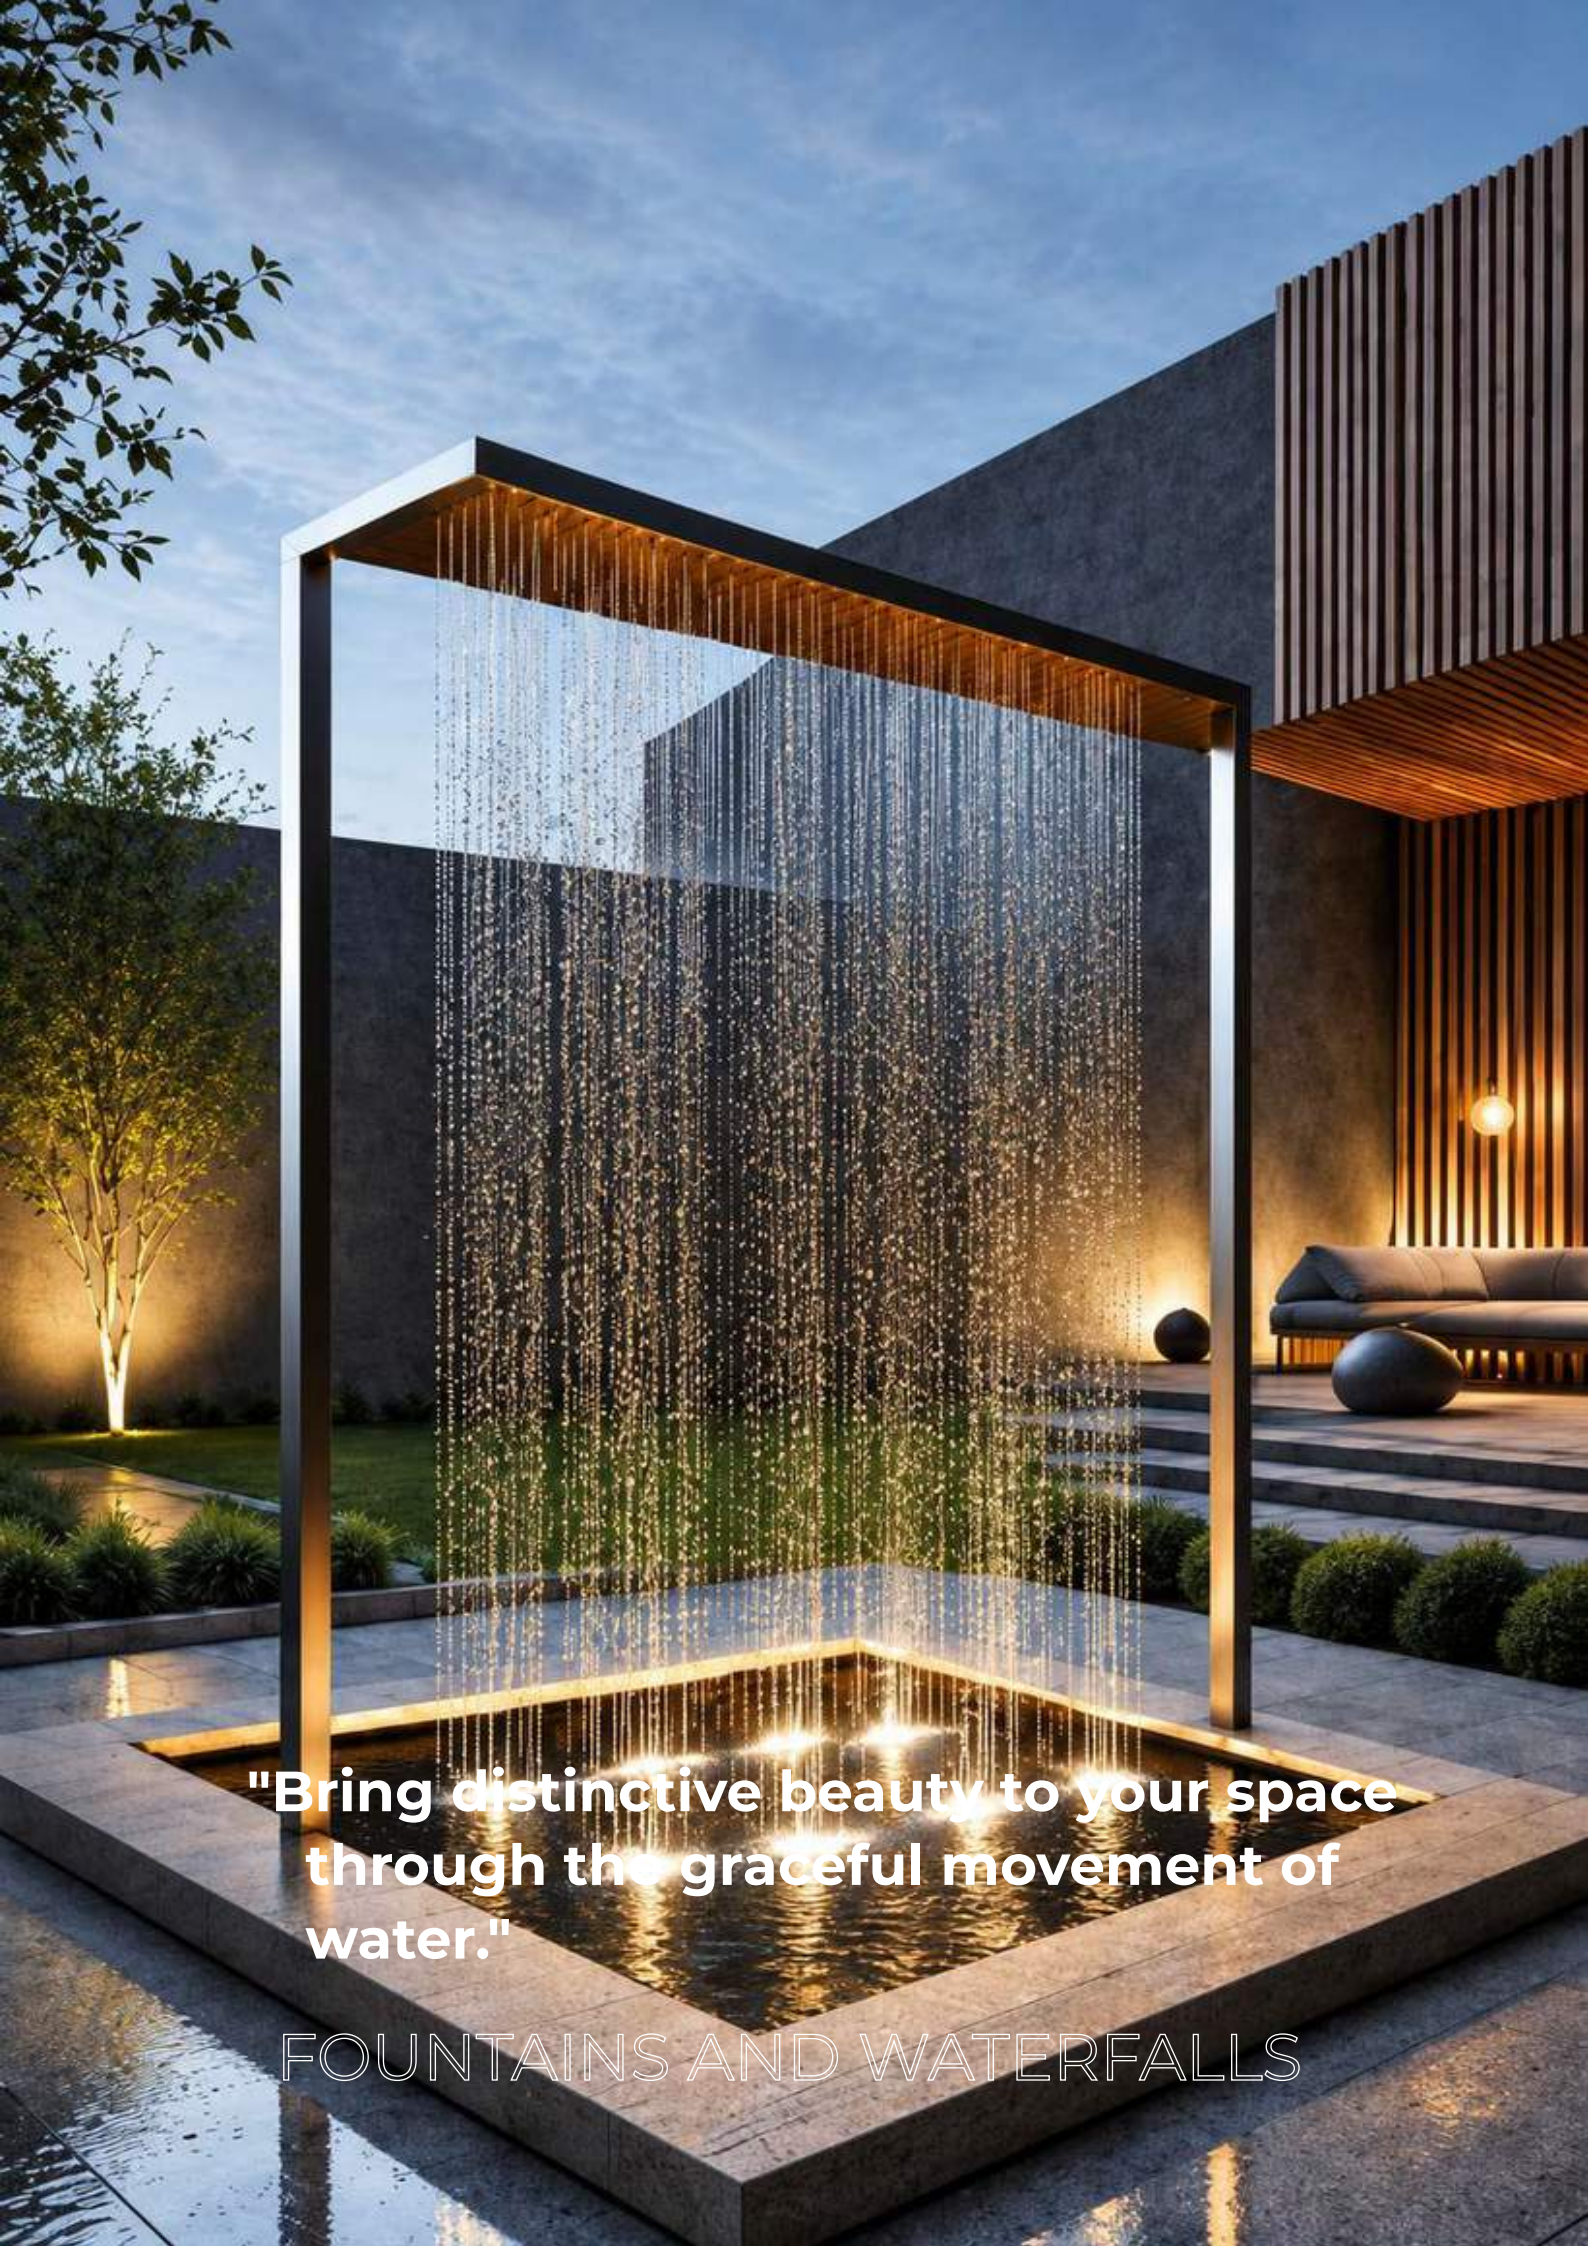

Salt Steam Room

At Safi Construction, we install salt steam rooms that combine hot steam, salt effects and a relaxing spa atmosphere. At Safi Construction, we create hot steam, salt effects and a comfortable spa environment.

 Salt Effect: Salt elements give the steam room a natural, distinctive and attractive spa appearance.

 Calm and Clean Environment: Soft lighting and salt details create a more comfortable and peaceful atmosphere.

**"Bring distinctive beauty to your space
through the graceful movement of
water."**

FOUNTAINS AND WATERFALLS

Wall and Cascade Fountains

Wall and cascade fountains are decorative water systems that use flowing water to bring tranquility, visual appeal and a premium atmosphere to a space. At Safi Construction, we offer fountain solutions for gardens, villas and hotels.

 **Design Tailored to Your Space:** Bespoke designs are available for gardens, courtyards, hotels and restaurants.

 **Premium Appearance:** Wall and cascade designs give interiors a luxurious, attractive and modern look.

Musical Fountain

Musical and dancing fountains combine moving water with music and lighting effects to create an impressive visual display and a distinctive atmosphere. These systems are attractive, premium decorative features for a variety of spaces.

 **Movement to Music:** Water jets move in time with the music to create a spectacular display.

 **Lighting Effects:** Colored lighting gives the fountain a more striking, premium appearance at night.

Architectural Fountain

Architectural fountains are decorative water systems that combine water effects, attractive design and lighting to give a space a premium look and a distinctive atmosphere. At Safi Construction, we offer stylish, long-lasting architectural fountain solutions tailored to your space.

 Architectural Design: The fountain is designed to match the style of its setting and complement the overall appearance.

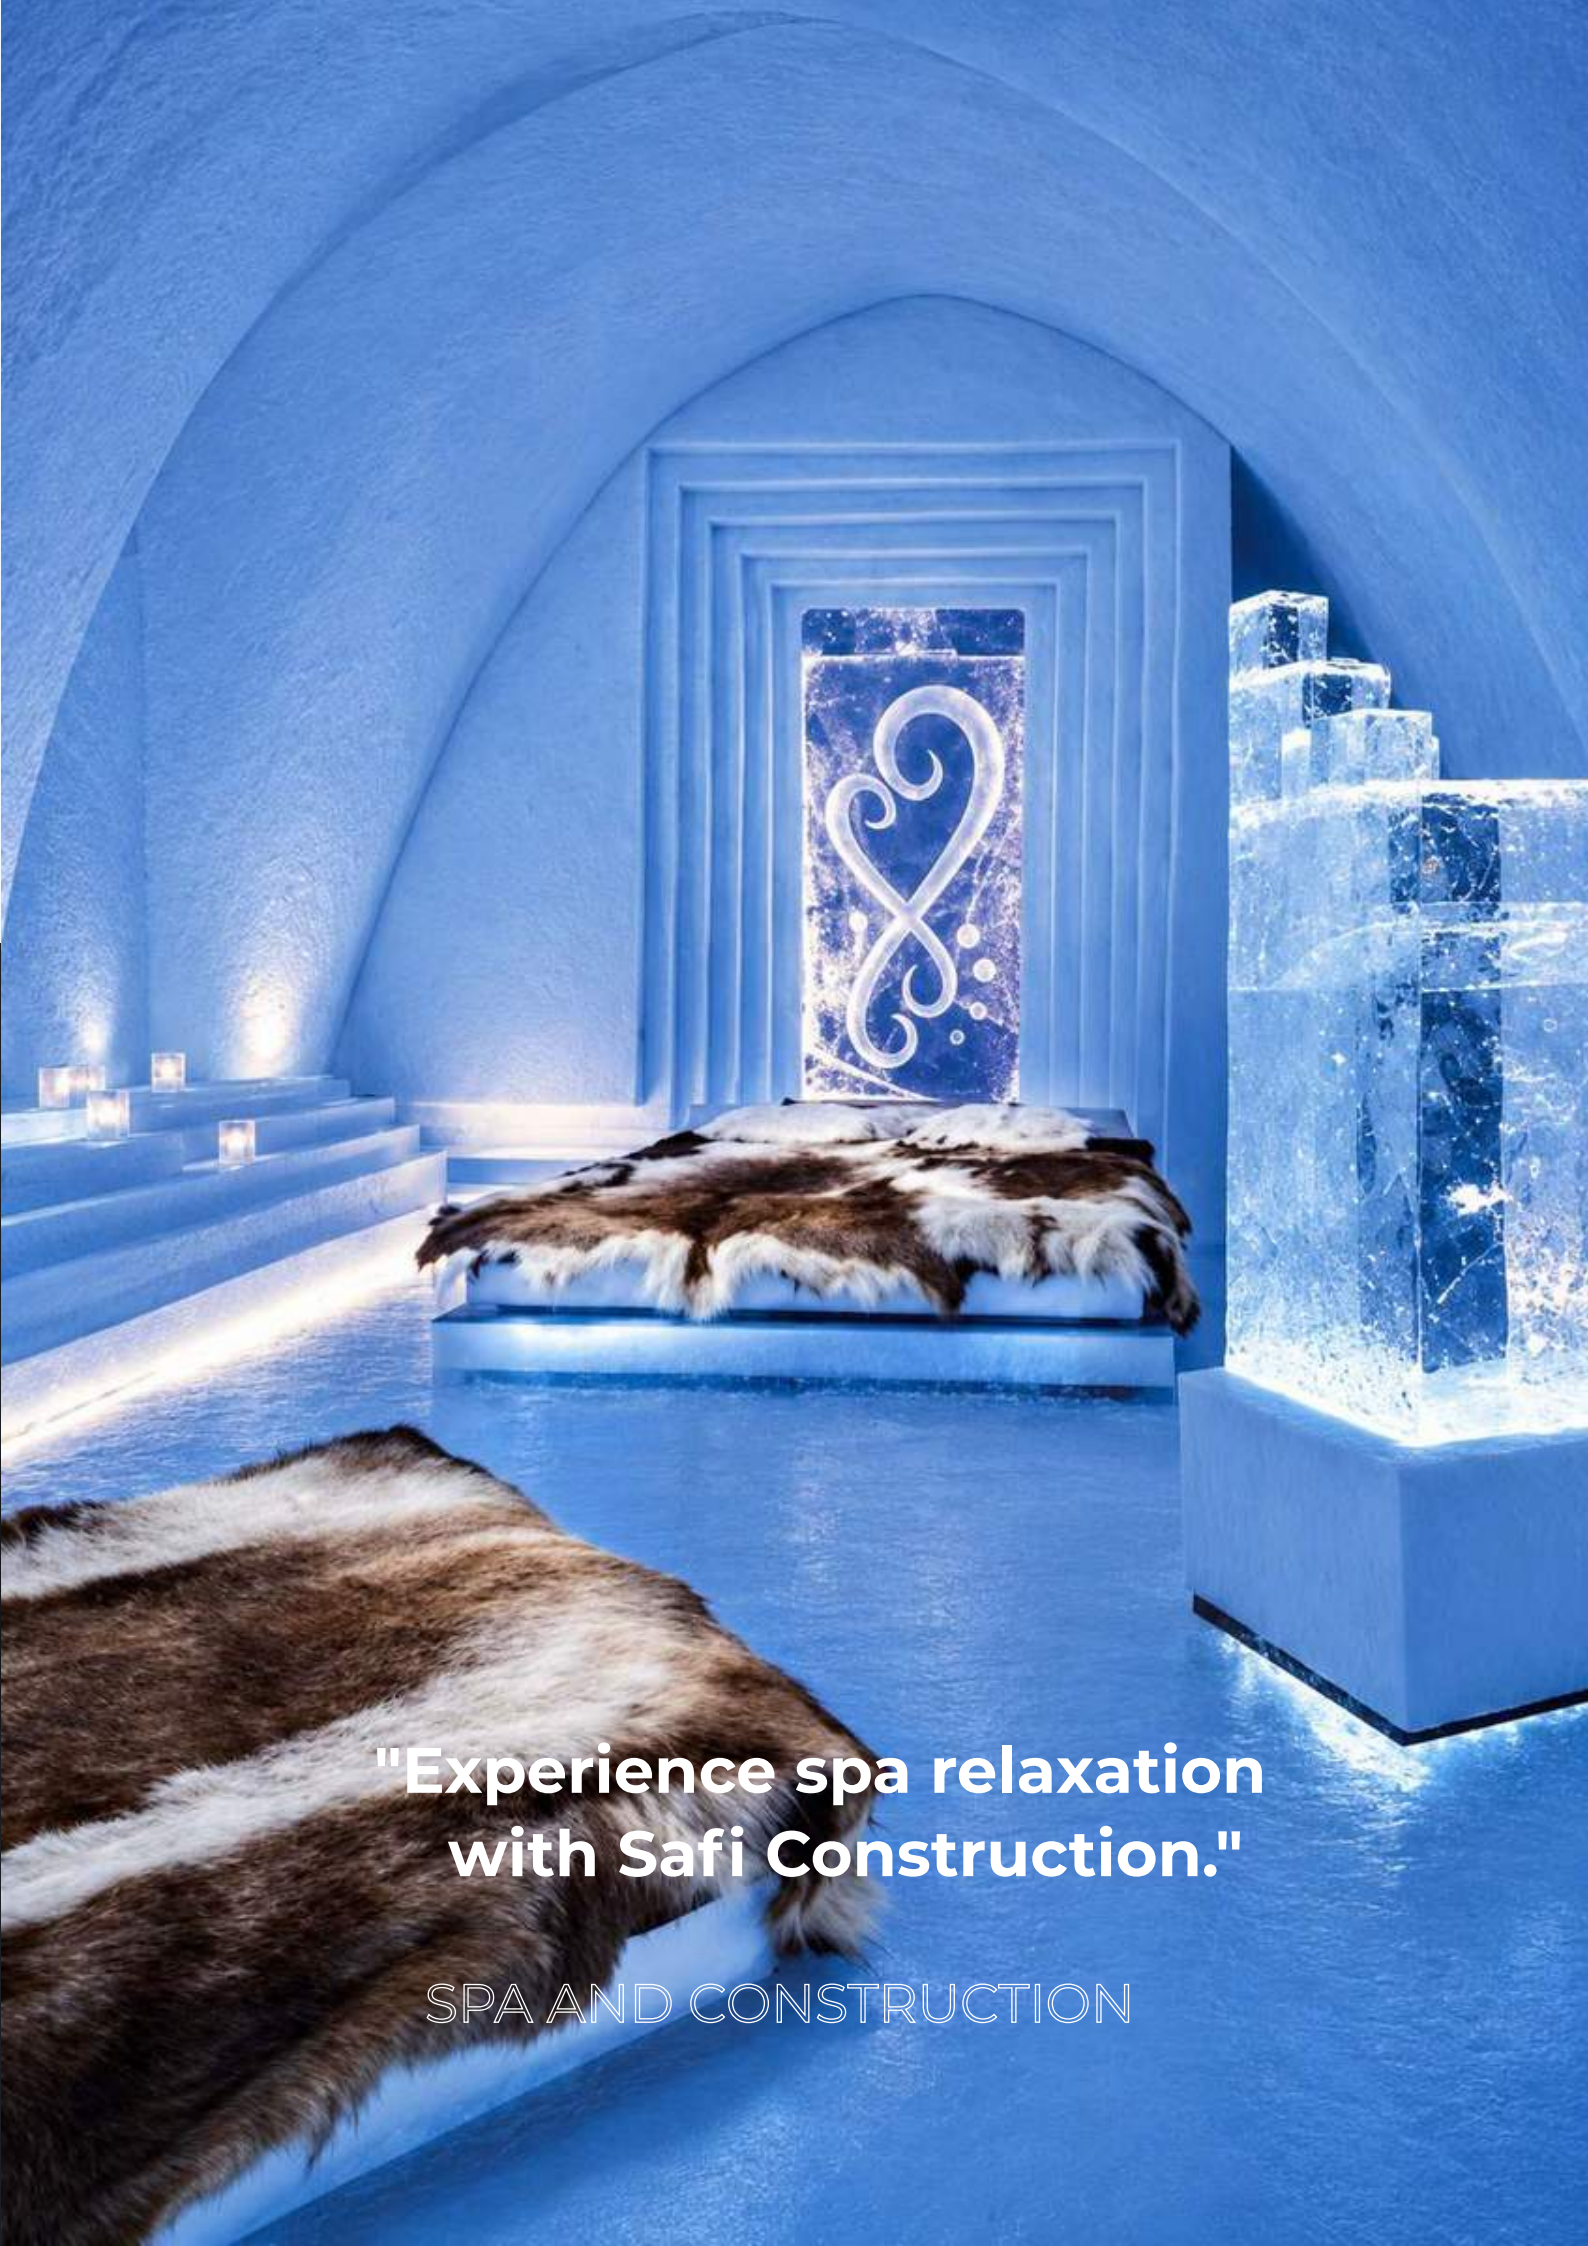

Interactive Fountain

Interactive fountains are decorative water systems that use moving water, lighting and modern controls to bring energy and visual interest to a space.

Indoor Decorative Fountain

Indoor decorative fountains are specially designed water features that bring visual appeal, tranquility and a premium atmosphere to interior spaces.

The image depicts a luxurious ice spa environment. The room features a series of concentric, arched doorways leading to a central area. In the center, a low platform holds a bed covered with a brown and white fur rug. To the right, a large, intricate ice sculpture stands on a white base. The walls and ceiling are made of ice, and the floor is a smooth, light blue surface. On the left, a series of steps lead up, with small, glowing candles placed along the edge. A large, decorative window with a swirling pattern is visible through the central doorway. The overall atmosphere is serene and elegant.

**"Experience spa relaxation
with Safi Construction."**

SPA AND CONSTRUCTION

ICE AND SNOW ROOM

An ice and snow room is a specialized room that brings coolness, freshness and a premium relaxation atmosphere to spa and sauna facilities. It is an ideal choice for cooling the body after hot sauna and steam sessions and creating a distinctive, luxurious spa experience.

Cooling Effect: Provides a refreshing and revitalizing sensation after heat treatments.

Premium Spa Atmosphere: Adds a luxurious, distinctive look to spas, hotels, villas and private leisure spaces.

Comfortable Use: When used alongside saunas and steam rooms, it creates a more balanced relaxation experience.

SALT ROOM

A salt room is a dedicated relaxation space that combines special salt panels, soft lighting and a peaceful atmosphere to provide comfort and a premium spa experience. At Safi Construction, we install salt rooms that create tranquility, relaxation and a premium spa atmosphere.

Salt Features: Salt stones and panels give the room a distinctive, attractive and natural appearance.

Comfortable Atmosphere: A peaceful setting and gentle design create ideal conditions for unwinding from everyday fatigue.

Premium Spa Appearance: Salt walls and lighting create a luxurious, comfortable spa atmosphere.

Floatation Pod

A floatation pod is a premium spa solution that uses a special saltwater system to allow the body to float comfortably, providing tranquility and deep relaxation. At Safi Construction, we offer high-quality floatation systems with attractive designs tailored to your space.

- Deep Relaxation: A peaceful setting, soft lighting and the effect of water soothe the body and mind.

Salt Cave

A salt cave is a specialized system that combines natural salt panels, a peaceful atmosphere and a premium spa appearance to bring comfort and distinctive design to leisure spaces. We offer attractive, high-quality salt cave solutions tailored to your space.

Ice Cave

An ice cave is a specialized system that combines cool air, ice decorations and a premium spa atmosphere to bring a distinctive appearance and a refreshing sensation to leisure spaces. We offer high-quality ice cave solutions with attractive designs.

WATER PARK PROJECT

Water parks are modern aquatic complexes that combine water attractions, pools and relaxation areas to create fun, comfortable spaces for children and adults. At Safi Construction, we offer safe, attractive and high-quality water park construction solutions tailored to your space.

A Variety of Water Attractions: Slides, pools and water play features create an engaging and entertaining atmosphere.

Quality Construction: Built for long-term use with durable materials and appropriate technical solutions.

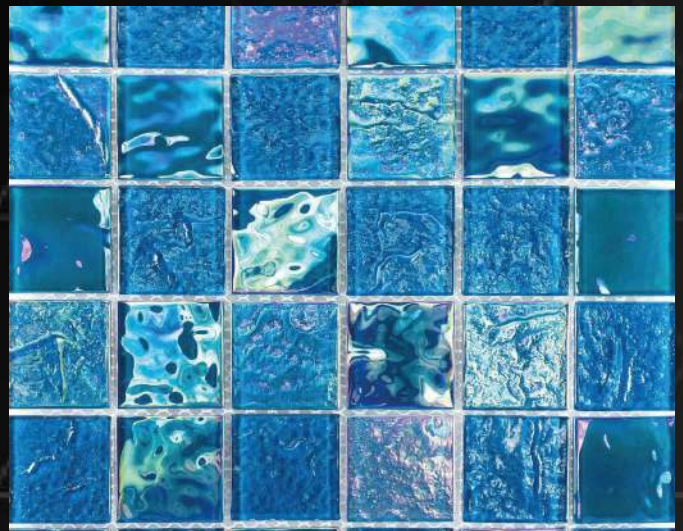

A high-angle photograph of a swimming pool. The pool's deck is covered in a mosaic of small, square tiles in various shades of blue and green. The pool water is clear and blue, reflecting the sky and the surrounding environment. A striped lounge chair is visible in the bottom left corner, partially on the pool deck and partially on the pool tiles. The pool deck is made of large, light-colored stone tiles. The pool is bordered by a dark, possibly black, material.

**"Distinctive, premium products
for your pool and home."**

OTHER PRODUCTS

MOSAICS AND PORCELAIN TILES

At Safi Construction, we sell high-quality porcelain and ceramic products for homes, villas, restaurants, hotels, pools and spas. Their durability, moisture resistance, modern appearance and wide selection of designs make them ideal for interior and exterior spaces. Available in a variety of sizes, colors and textures, our porcelain and ceramic products give your space an attractive, refined and long-lasting finish.

POOL EQUIPMENT

Every pool system we install is specially designed for efficiency, quiet operation and long-lasting use. Our filtration and water circulation solutions keep pool water clean, clear and balanced throughout the year.

Sand Filtration Systems

A sand filtration system helps clean pool water by trapping dirt, dust and fine particles in a special layer of sand. It is a durable, economical and easy-to-use choice for large pools.

Variable Speed Pumps

Variable speed pumps are modern systems that circulate pool water more efficiently, quietly and economically. Unlike conventional single-speed pumps, they adjust the motor speed to suit the pool's needs, reducing energy consumption.

Water Circulation Systems

Skimmers help remove leaves, dust, oils and other debris that collect on the surface of pool water. Installed at the edge of the pool, the system continuously draws water in, improving filtration and keeping the water cleaner.

Water Level Control System

Automatic water level controllers maintain the pool's water level conveniently and accurately. These smart systems monitor the water level and automatically start or stop the water supply as needed.

Heat and Water Resistant LEDs

Heat- and moisture-resistant LED lights are an ideal choice for safe, attractive lighting in pools, spas and humid environments. They are resistant to water, humidity and temperature changes. LED lighting gives the pool area a modern appearance.

WATER TREATMENT SYSTEMS

Hot weather and high evaporation rates increase the need for stronger pool water treatment systems. Our modern water treatment technologies help keep pool water clear, clean and balanced, while minimizing chemical use to create a healthier and more sustainable pool environment.

UV UV Sterilizer

UV sterilizers use ultraviolet light to help reduce bacteria and microorganisms in the water. The system improves water quality by keeping pool water cleaner and more hygienic.

Ozone Generators

Ozone generators are modern, effective systems for treating pool water. This technology helps keep water clearer and offers an ideal solution for reducing chemical use.

Chlorine Control System

Automatic pH and chlorine controllers continuously monitor the balance of pool water and automatically adjust it to the required levels. The system helps keep the water hygienic, safe and ready for use.

Smart Sensor System

Smart sensors and control systems monitor pool water quality in real time and make automatic adjustments. This technology makes pool management more convenient, safe and efficient.

ROBOTIC POOL CLEANERS

Robotic pool cleaners and automation systems are modern technologies that make pool cleaning, water circulation and management easier and smarter. At Safi Construction, we offer high-quality, energy-efficient pool automation solutions tailored to your space.

◆ Wi-Fi and App Control: A smart control system makes monitoring pool equipment easier and more practical.

■ Robotic Pool Cleaners: Automatically clean the pool floor and walls, removing dirt, dust and fine particles.

SAUNA PRODUCTS

Sauna Stove

A sauna stove is an ideal choice for creating a traditional sauna atmosphere. Its powerful heat output warms the sauna quickly, while natural wood combustion creates a comfortable, warm environment.

Sauna Bucket

A traditional sauna accessory. Water held in the bucket is poured onto the stones using a ladle. Made from natural wood, it withstands high temperatures.

Sauna Sand Timer

Used to monitor the time spent in the sauna. It typically has a 5- to 15-minute timing interval. Mounted on the wall, it is an important accessory for both safety and time management.

Himalayan Salt Brick

Made from natural Himalayan salt, this block is both decorative and functional. When heated, it ionizes the surrounding environment to create more comfortable breathing conditions.

Stainless Steel Slim**

A high-end indoor swimming pool area at night. The pool is rectangular with a dark, patterned tile border and a blue mosaic tile bottom. The water is illuminated with a bright blue light. The surrounding space is a modern lounge with a large, light-colored sofa, a wooden deck, and a large potted plant. The ceiling is a dramatic, dark, textured surface with recessed lighting. The walls are made of light-colored stone or marble, with recessed lighting. The overall atmosphere is sophisticated and luxurious.

**"At Safi Construction, we deliver
outstanding projects."**

PROJECT REFERENCES

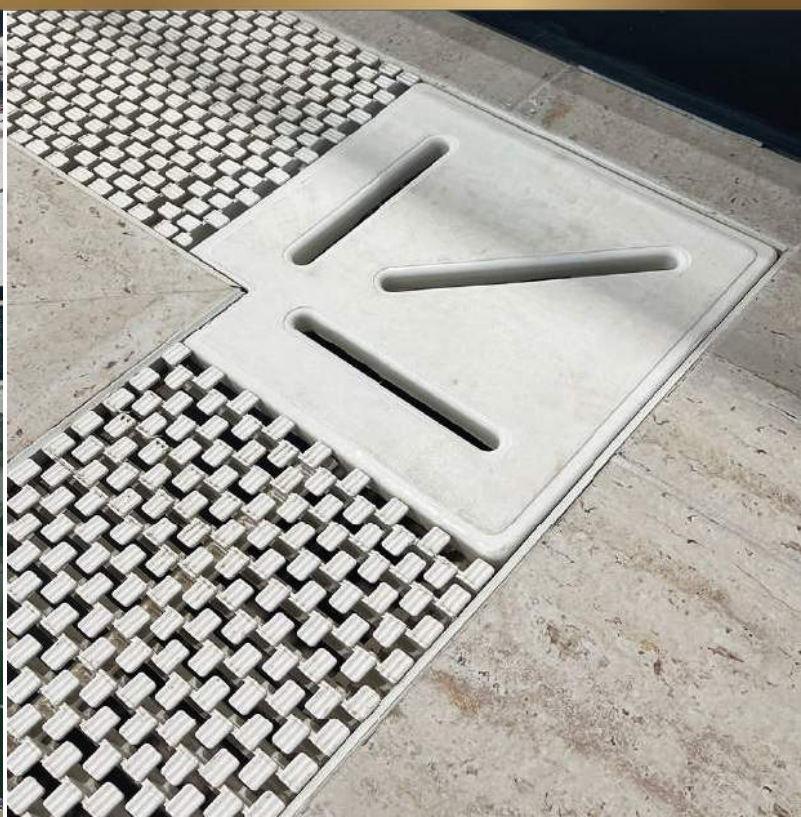

AZAL TRAINING POOL

The project included the installation of stainless steel ladders around the pool, the positioning of the drainage system, and tiling and finishing works. These improvements make the pool safer, more functional and more attractive to use.

SAFI CONSTRUCTION AND BARS STRONG COLLABORATION, TRUSTED PARTNERSHIP

At Safi Construction, we place particular importance on continually developing our business and using high-quality, reliable materials in our projects. One of our latest steps in this direction is the launch of our co-operation with BARS, a recognized name in construction chemicals.

BARS offers high-performance adhesives, waterproofing products and specialized mortars for marble and granite that help achieve strength, durability and quality results throughout the construction process. These products provide reliable solutions for swimming pools, spas, facades, ceramic and marble installations, and a wide range of construction projects.

This new collaboration will further improve the quality of materials used in Safi Construction projects and support the longevity and durability of our work. Our goal is to deliver every project safely, in accordance with technical standards and with lasting performance, alongside an attractive appearance.

By combining BARS' innovative products with Safi Construction's professional project delivery experience, we will offer our customers higher-quality, more reliable construction solutions. This partnership will make a significant contribution to the development of our new projects and further improvements in our service quality.

Quality materials, professional execution and long-lasting results, brought together through the partnership between Safi Construction and BARS.

PROMARBLE MAX W 495

PROMARBLE MAX W 495 is a white adhesive designed for bonding marble, granite and other natural stone. Its strong adhesion, flexibility and durability reduce slipping on vertical surfaces, provide an extended working time and minimize the risk of staining and discoloration in natural stone. It is suitable for indoor and outdoor use and resists temperature changes.

BARS PROMARBLE MAX W 495

BARS PROMARBLE MAX W 490

A high-performance, white, flexible adhesive mortar designed for bonding granite, marble and natural stone surfaces. Its strong adhesion and durable structure ensure that the material bonds firmly to the substrate.

BARS PROMARBLE MAX W 490

PROLASTIC MEGA 230 (Liquid Component)

PROLASTIC MEGA 230 Component B is an acrylic-based liquid material. It provides high flexibility, improves adhesion to the substrate, increases resistance to cracks and temperature changes, and offers long-lasting protection against water and moisture.

CERTIFICATE OF CONFORMITY

SZUTEST

CE
2765

Notified Body pursuant to the Construction Products Regulation
Permission № CPR-26-NB2765/03.05.2018 of
Ministry of Regional Development and Public Works

Certificate of Conformity of the Factory Production Control № 2765-CPR-0162

In compliance with Regulation (EU) № 305/2011 of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the construction product

Products and systems for the protection and repair of concrete structures

(for list of products see Annex I to 2765-CPR-0162 that is an inseparable part of this certificate)

Intended use – concrete protection and repair products in buildings and civil engineering works,
essential characteristics and their performances are according to Annex ZA.1 of the applicable
standard and declared by the manufacturer

placed on the market under the name of

DEKOSTAR YALITIM ÜRÜNLERİ İNŞAAT SANAYİ VE TİCARET LİMİTED ŞİRKETİ

KarahıdırKöyü Mah. Karahıdır Okul Cad.No:78 Gürsu-BURSA / TURKEY

and produced in the manufacturing plant

KarahıdırKöyü Mah. Karahıdır Okul Cad.No:78 Gürsu-BURSA / TURKEY

This certificate attests that all provisions concerning the assessment and verification of constancy of
performance described in Annex ZA of the standard

EN 1504-2:2004

under system 2+ are applied and that

the factory production control is assessed to be in conformity with the applicable requirements

This certificate was first issued on 10.02.2020 and will remain valid until 08.05.2027 or neither the
harmonised standard, the construction product, the assessment and verification of constancy of
performance methods nor the manufacturing conditions in the plant are modified significantly, unless
suspended or withdrawn by the notified factory production control certification body.
